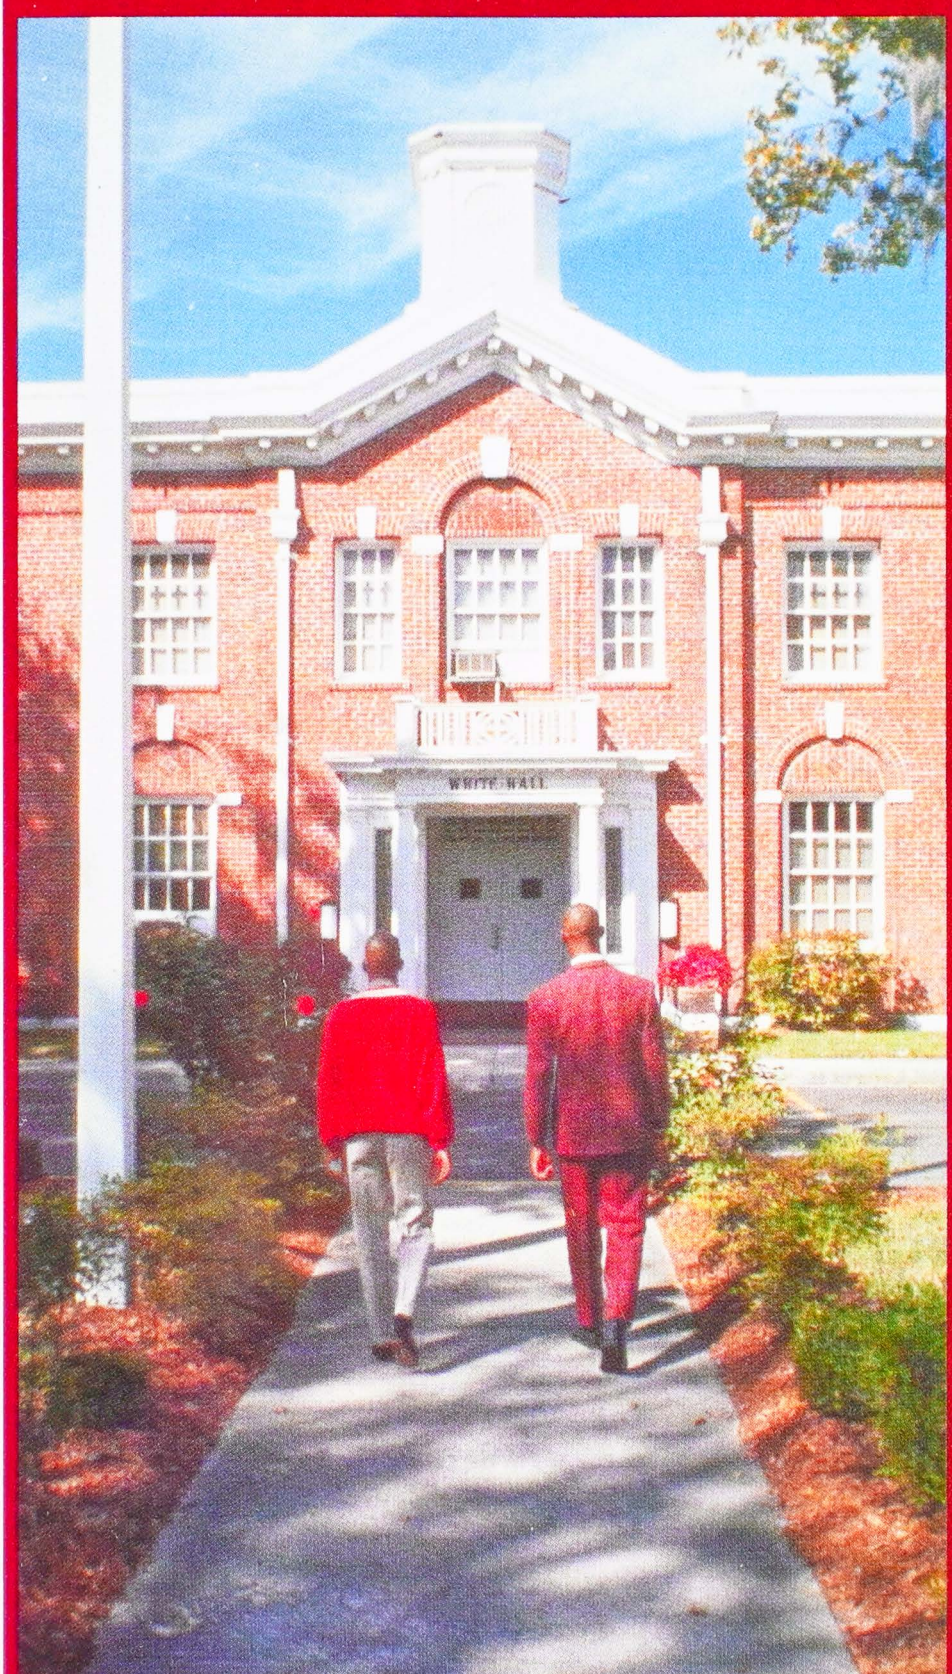
Bethune-Cookman College



Daytona Beach, Florida

Collections - Bethune-Cookman

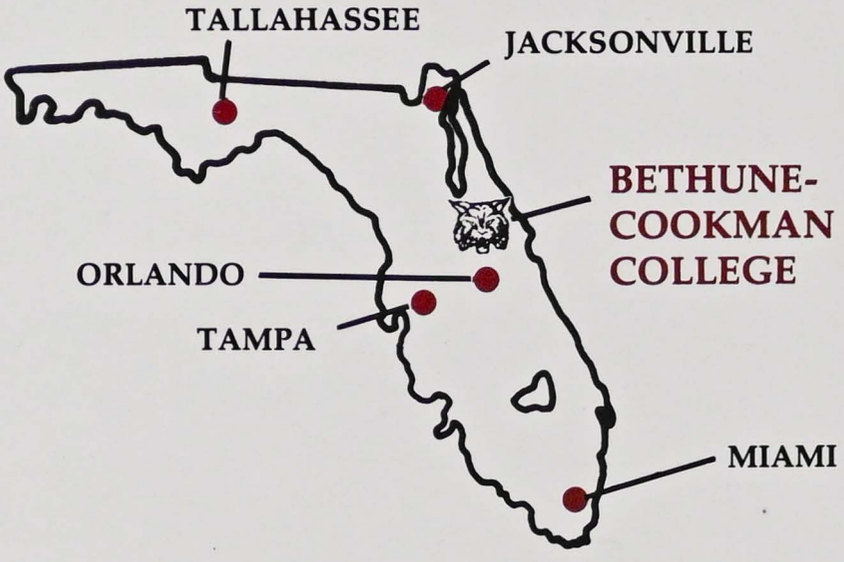
LOCATION

Bethune-Cookman College is in Daytona Beach, a major central Florida city which is the hub of a metropolitan area of over 100,000.

The more than 2,000 students are an integral part of the community. A wide range of cultural, intellectual, recreational and athletic activities are available on campus and within reasonable traveling distance. Major Florida attractions nearby include Walt Disney World, EPCOT and the Kennedy Space Center.

The campus, with its 31 well-equipped and attractive buildings, covers 52 acres within 2 miles of the World's Most Famous Beach.

Students and visitors have easy access to airline, bus, and train transportation.



B-CC students enjoy the beach - within 2 miles of campus.

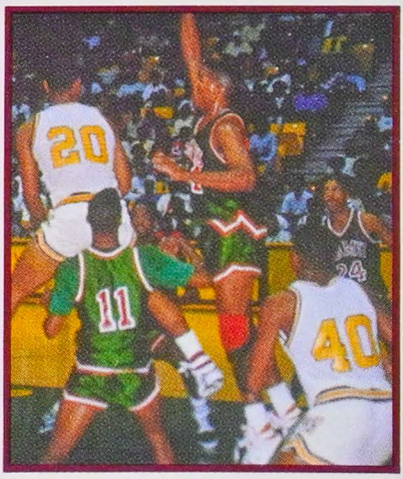
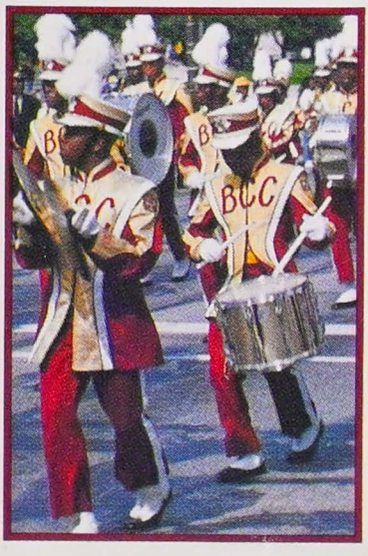
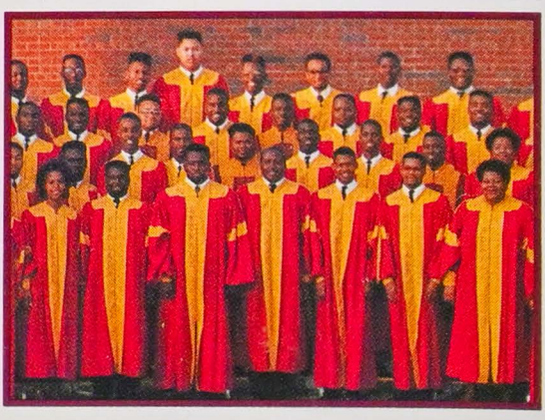
Management
Marketing
Mathematics
Mathematics Education
Medical Technology
Nursing
Physical Education
Political Science
Psychology

MASTERS OF SCIENCE EDUCATION

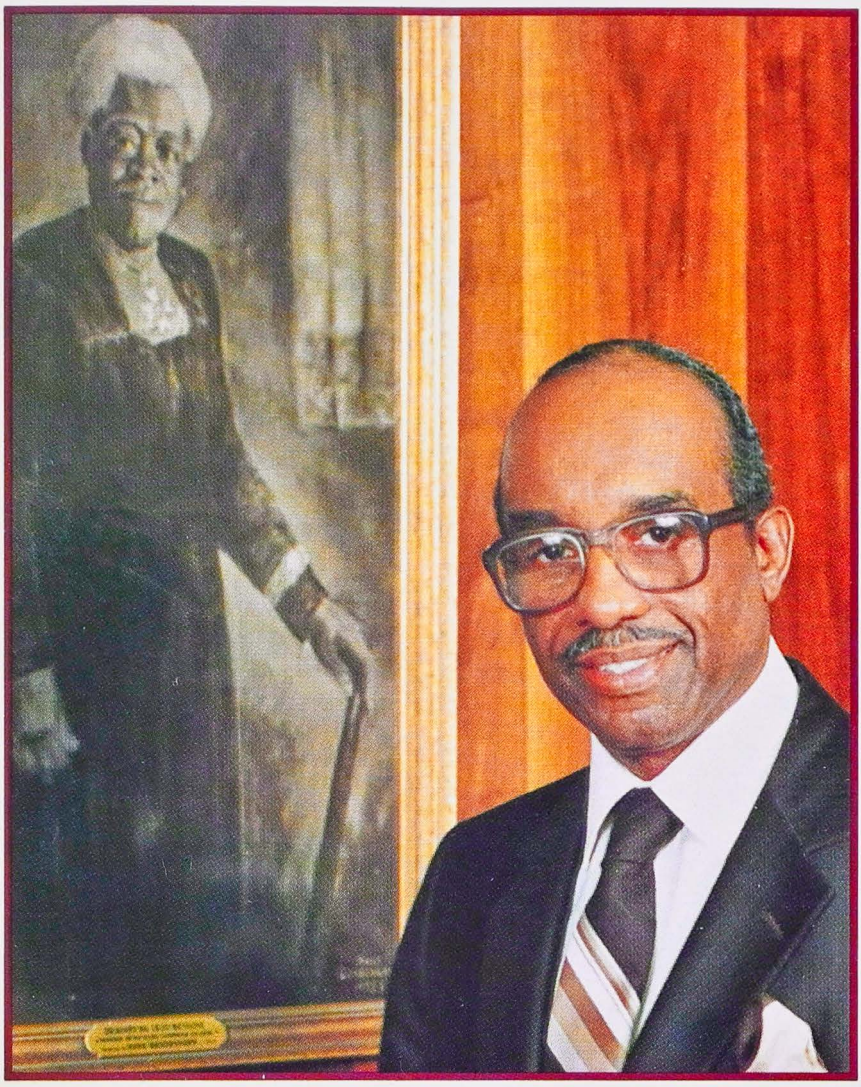
Biology
Chemistry







A well-rounded lifestyle of activities.



Dr. Oswald P. Bronson, Sr., President

HISTORY

Bethune-Cookman College is a result of the merger in 1923 of the Daytona Normal and Industrial Institute for Girls, founded in 1904 by Dr. Mary McLeod Bethune and Cookman Institute for Boys, founded in Jacksonville in 1872 by Rev. D.S. Darnell. The new institution, called the Daytona Cookman Collegiate Institute, became affiliated with the Board of Education of the Methodist Church. The name later was changed to Bethune-Cookman College.

In 1941, a four-year degree program was developed in liberal arts and teacher training. Two years later, the first group of graduates received the Bachelor of Science Degree in Elementary Education.

Six years later, in 1947, the college received an "A" rating from the Southern Association of Colleges and Schools and the Florida State Department of Education. Since 1960, Bethune-Cookman College has been accredited by the Southern Association of Colleges and Schools.

In 1988 Bethune-Cookman College was admitted to candidacy status by the Southern Association of Colleges and Schools to offer the Master's Degree in Science Education.
